

RE3-ACC-PCA Polar Choice adapter for RE3-BPT

- Mounts permanently
- Adapts RE3-BPT for use in Polar Choice Satellite microphones
- Supplied belt clip enables RE3-BPT for use in other applications

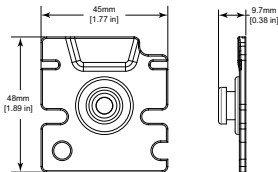

The RE3-ACC-PCA is an accessory kit allowing the RE3 bodypack transmitter to be mounted into the Electro-Voice Polar Choice PC Boundary Sat and PC Satellite models, while also allowing the transmitter to be used in other traditional bodypack transmitter applications. The adapter accessory mounts permanently to the RE3-BPT via its strong adhesive backing, and the supplied belt clip allows the RE3-BPT with the adhesive mount attached to be securely-clipped to a belt, waistband, or other garment.

Installation/configuration notes

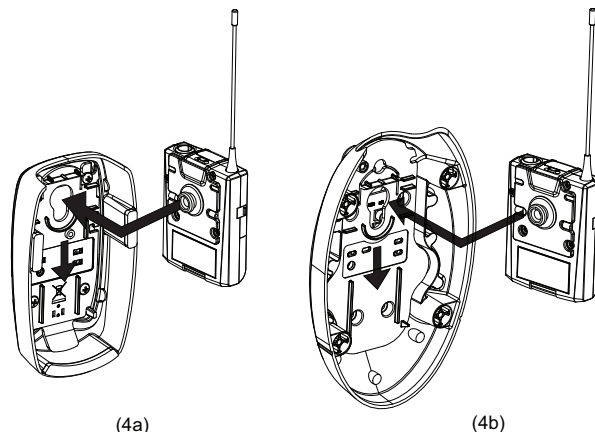

To install the adapter accessory:

1. Place transmitter display side down on a stable surface.
2. Remove the RE3-BPT spring belt clip by prying each of the two seating pins outward from its mounting socket as shown in (1a) so the spring belt clip is free as shown in (1b).
3. Thoroughly clean the surface of the RE3-BPT where the accessory will be mounted with an alcohol-soaked cloth to remove any oil, dirt, or debris.
4. Holding the adapter accessory by its sides, peel away and discard the backing film to expose the adhesive surface as shown in (2) - do not touch the adhesive surface.
5. Prior to permanently adhering the adapter accessory to the RE3-BPT, carefully position it where it will be mounted as shown in (3a).

6. Firmly press and hold all areas of the adapter accessory to the RE3-BPT for 5 seconds to ensure it is securely mounted.

When the adapter accessory is properly mounted as shown in (3b), the RE3-BPT is ready to mount into the Polar Choice Satellite microphone.

To install the RE3-BPT into a Polar Choice Satellite microphone:

1. See (4a) for installing into PC Boundary Sat.
2. See (4b) for installing into PC Satellite-5, PC Satellite-12, and PC Satellite-18.
